RE: Non-Covered Additional Physical Therapy Services

Dear Blue Cross Patient, or any Insurance Company that Utilizes ASHP;

Your insurance PPO policy may have contracted with a third party “managed care” company for your chiropractic care. It is a controlled and regulated plan by clinical managers at the ASH (American Specialty Health Plan) facility.

Due to the Affordable Care Act (ACA), there has been a reduction in your coverage as of October 1, 2013. Your insurance plan will now cover only one physical therapy modality per session. These services that may not be included are: electrical stimulation, hot pack, ultrasound, laser, and supplies, therefore, you are responsible for those services rendered that are not covered by your policy. All treatment plans will be discussed prior to your care.

There will be an additional charge of \$15-20.00 for these uncovered services and due upon services rendered.

I have read the above, and agree to the terms of this office's policy.
